Applewood Smoked Berkshire Ham Cooking Directions

The spiral cut, honey glazed ham will arrive frozen. Please allow 36 to 60 hours to fully thaw in the refrigerator before heating.

Preheat oven to 325 degrees. Let ham stand at room temperature for 30 minutes. Remove outside wrapper and foil from the ham. Place ham in a roasting pan. Thread 2 toothpicks through the first slice of ham to prevent the slice from separating during heating. Pour ¼" of water in the bottom of the pan. Cover pan with foil. Heat the ham 10-12 minutes per pound until it reaches 140 degrees.

Do not overheat.
